Early Learning Ventures (ELV) is a non-profit dedicated to building the supply of quality child care. We deliver resources, technology, and support necessary for small child care businesses to be successful. The combination of our child care management system, **Alliance CORE**, with our partner-based approach, is the key to our success.

Tiered Services

- 1. Shared ECE Resource Platform**
 One-stop shop powered by CCA for Social Good, built for providers and child care entities. Policy templates, forms, regulation guides, savings tools, and more exist on the platform to save providers time and money.
- 2. Alliance CORE Child Care Management System**
 Streamlining many of the administrative processes, (enrollment, billing, record-keeping, licensing, monitoring etc.) we help providers run a successful child care via our virtual operational assistance. Our system provides a foundation on which providers can save time and more smoothly run their business.
